

## Material Safety Data Sheet

Rubber base nr.12 shimmer

### Page 1

#### 1. Product

Product Name: Rubber base nr.12 shimmer

#### 2. Hazards Identification

##### 2.1. Classification of the substance or mixture

**Classification under CLP:** Aquatic Chronic 3: H412; Eye Dam. 1: H318; Skin Irrit. 2: H315; Skin Sens. 1: H317; STOT SE 3: H335

**Most important adverse effects:** Irritating to eyes, respiratory system and skin. May cause sensitization by skin contact. Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

##### 2.2. Label elements

**Label elements under CLP:**

**Hazard Statements:**  
H315: Causes skin irritation.  
H317: May cause an allergic skin reaction.  
H319: Causes serious eye irritation.  
H335: May cause respiratory irritation.

**Signal words:** Warning

**Hazard pictograms:**

GHS07 and GHS09

**Precautionary statements:**

P261: Avoid breathing dust/fume/gas/mist/vapours/spray.  
P264: Wash thoroughly after handling.  
P280: Wear protective gloves/protective clothing/eye protection/face protection.  
P337+P313: If eye irritation persists: Get medical advice/attention.  
P321: Specific treatment (see on this label).

**Other:**

For professional use only.  
Read directions for use carefully Avoid contact with skin.

##### 2.3. Other hazards

**Other hazards:** May cause sensitization by skin contact.

## Material Safety Data Sheet

Rubber base nr.12 shimmer

### Page 2

PBT:

This substance is not identified as a PBT substance.

### 3. Composition / Information on Ingredients

Substance/mixture: Mixture

Ingredients	Concentration Range
Urethane Acrylates Oligomer	50-75 %
Hydroxypropyl Methacrylate	10-25 %
Epoxy Methacrylate	10-25%
Trimethylhexyl Dicarbamate	5-10 %
Methy Benzoylformate	1-5 %
p-Hydroxyanisole	< 0,02 %

There are no additional ingredients present which, within the current knowledge of the supplier, are classified and contribute to the classification of the substance and hence require reporting in this section.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs or vPvBs or have been assigned a workplace exposure limit and hence reporting in this section.

#### Type

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

[3] Substance meets the criteria for PBT according to Regulation (EC) No. 1907/2006, Annex XIII

[4] Substance meets the criteria for vPvB according to Regulation (EC) No. 1907/2006, Annex XIII [5] Substance of equivalent concern

Occupational exposure limits, if available, are listed in Section 8.

### 4. First Aid Measures

Initial Date: 20-1-2017

## Material Safety Data Sheet

Rubber base nr.12 shimmer

### Page 3

#### 4.1. Description of first aid measures

<b>Eye Contact:</b>	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.
<b>Inhalation:</b>	Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
<b>Skin contact:</b>	Wash with plenty of soap and water. Remove contaminated clothing and shoes. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Get medical attention. In the event of any complaints or symptoms, avoid further exposure. Wash clothing before reuse. Clean shoes thoroughly before reuse.
<b>Ingestion:</b>	Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
<b>Protection of first-aiders:</b>	No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

#### 4.2 Most important symptoms and effects, both acute and delayed

##### Potential acute health effects

<b>Eye contact:</b>	Causes serious eye irritation
<b>Inhalation:</b>	No known significant effects or critical hazards.

Initial Date: 20-1-2017

## Material Safety Data Sheet

Rubber base nr.12 shimmer

### Page 4

**Skin contact:** Causes skin irritation. May cause an allergic skin reaction. **Ingestion:**  
No known significant effects or critical hazards.

#### Over-exposure signs/symptoms

**Eye contact:** Adverse symptoms may include the following:  
pain or irritation  
watering redness

**Inhalation:**

**Skin contact:**

**Ingestion:**

#### ***4.3 Indication of any immediate medical attention and special treatment needed***

**Notes to physician:** Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

**Specific treatments:** No specific treatment.

## 5. Fire Fighting Measures

### ***5.1. Extinguishing media***

**Suitable extinguishing**

**media:**

Use an extinguishing agent suitable for the surrounding fire.

**Unsuitable extinguishing**

**media:**

None known

### ***5.2. Special hazards arising from the substance or mixture***

**Hazards from the**

**substance or mix:**

In a fire or if heated, a pressure increase will occur and the container may burst.

**Hazardous thermal**

**Decomposition products:**

carbon dioxide

Decomposition products may include the following materials:

carbon monoxide

### ***5.3. Advice for fire-fighters***

**Special**

**protective actions**

**for fire-fighters:**

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

**Special protective equipment**

**for fire-fighters:**

Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots

## Material Safety Data Sheet

Rubber base nr.12 shimmer

### Page 5

and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents.

## 6. Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

**For non-emergency personnel:** No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

**For emergency responders:** If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

**6.2 Environmental precautions:** Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

### 6.3 Methods and materials for containment and cleaning up

**Small spill:** Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor

**Large spill:** Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product.

**6.4 Reference to other sections:** See Section 1 for emergency contact information.

See Section 8 for information on appropriate personal protective equipment.  
See section 13 for additional waste treatment information.

## 7. Handling and Storage

The information in this section contains generic and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

Initial Date: 20-1-2017

## Material Safety Data Sheet

Rubber base nr.12 shimmer

Page 6

### 7.1. Precautions for safe handling

**Protective measures:** Put on appropriate personal protective equipment (see Section 8 ). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapor or mist. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

### Advice on general

**occupational hygiene:** Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

### 7.2 Conditions for safe storage, including any incompatibilities

Shield UV light sources. Do not store above the following temperature: 38°C (100.4°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

### 7.3 Specific end use(s)

**Recommendations:** Not available. **Industrial sector**  
**specific solutions:** Not available.

## 8. Exposure Controls / Personal Protection

The information in this section contains generic advice and guidance. Information is provided based on typical anticipated uses of the product. Additional measures might be required for bulk handling or other uses that could significantly increase worker exposure or environmental releases.

### 8.1. Control parameters

**Occupational exposure limits:** No exposure limit value known

### Recommended monitoring

**procedures:** If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness

Initial Date: 20-1-2017

## Material Safety Data Sheet

Rubber base nr.12 shimmer

### Page 7

of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to monitoring standards, such as the following: European Standard EN 689 (Workplace atmospheres – Guidance for the assessment of exposure by inhalation to chemical agents for comparison with limit values and measurement strategy) European Standard EN 14042 (Workplace atmospheres - Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents) European Standard EN 482 (Workplace atmospheres - General requirements for the performance of procedures for the measurement of chemical agents) Reference to national guidance documents for methods for the determination of hazardous substances will also be required.

#### DNELs/DMELs

No DNELs/DMELs available.

#### PNECs

No PNECs available.

#### 8.2. Exposure controls

##### Appropriate engineering controls:

Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

#### Individual protection measures

##### Hygiene measures:

Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

##### Eye/face protection:

Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles.

#### Skin protection

## Material Safety Data Sheet

Rubber base nr.12 shimmer

### Page 8

<b>Hand protection:</b>	Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.
<b>Body protection:</b>	Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
<b>Other skin protection:</b>	Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
<b>Respiratory protection:</b>	Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.
<b>Environmental exposure controls:</b>	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

## 9. Physical and Chemical Properties

### 9.1. Information on basic physical and chemical properties

<b>Physical state:</b>	Liquid. [Gel]
<b>Colour:</b>	Clear. [Light]
<b>Odour:</b>	Characteristic acrylate odor [Slight]
<b>Boiling Point:</b>	Not available
<b>Freezing Point:</b>	Not available
<b>Flash Point:</b>	Closed cup: >93.3°C
<b>Vapor Pressure:</b>	Not available
<b>Vapor density:</b>	Not available
<b>Relative density:</b>	Not available
<b>Auto-ignition temperature:</b>	Not available
<b>Decomposition temperature:</b>	Not available

Initial Date: 20-1-2017

## Material Safety Data Sheet

Rubber base nr.12 shimmer

### Page 9

**Viscosity:**

Not available

**Explosive properties:**

Highly explosive in the presence of the following materials or conditions:  
open flames, sparks and static discharge and heat.

#### 9.2 Other information

No additional information.

### 10. Stability and Reactivity

#### 10.1. Reactivity:

No specific test data related to reactivity available for this product or its ingredients.

#### 10.2. Chemical stability:

The product is stable

**10.3. Possibility of hazardous reactions:** Hazardous polymerization may occur under certain conditions of storage or use. These could cause the product to polymerize exothermically. Unintentional contact with them should be avoided.

#### 10.4. Conditions to avoid:

No specific data

#### 10.5. Incompatible materials:

No specific data

#### 10.6. Hazardous decomposition products:

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

### 11. Toxicological Information

#### 11.1. Information on toxicological effects

**Acute toxicity estimates** Not available.

#### Information on the likely

**Routes of exposure:**

Not available.

#### Potential acute health effects

**Eye contact:**

Causes serious eye irritation.

**Inhalation:**

No known significant effects or critical hazards.

**Skin contact:**

Causes skin irritation. May cause an allergic skin reaction. **Ingestion:**

No known significant effects or critical hazards.

## Material Safety Data Sheet

Rubber base nr.12 shimmer

### Page 10

#### Symptoms related to the physical, chemical and toxicological characteristics

**Eye contact:** Adverse symptoms may include the following:  
pain or irritation watering redness

**Inhalation:**

**Skin contact:**

**Ingestion:**

#### Delayed and immediate effects and also chronic effects from short and long term exposure **Short term exposure**

**Potential immediate effects:** Not available. **Potential**

**delayed effects:** Not available.

#### Long term exposure

**Potential immediate effects:** Not available.

**Potential delayed effects:** Not available.

**Potential chronic health effects** Not available.

**General:** Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels.

**Carcinogenicity:** No known significant effects or critical hazards.

**Mutagenicity:** No known significant effects or critical hazards.

**Teratogenicity:** No known significant effects or critical hazards.

**Developmental effects:** No known significant effects or critical hazards.

**Fertility effects:** No known significant effects or critical hazards.

**Other information:** Not available.

## 12. Ecological Information

### 12.3 Bio accumulative potential

Product/ingredient name	LogP <sub>ow</sub>	BCF	Potential
Isobornyl methacrylate TPO	5.09 -	- 53 to 72	high low

### 12.4 Mobility in soil

Soil/water partition

**Coefficient (K<sub>oc</sub>):** Not available

**Mobility:** Not available

### 12.5 Results of PBT and vPvB assessment

**PBT:** Not applicable **vPvB:**

Not applicable

## Material Safety Data Sheet

Rubber base nr.12 shimmer

Page 11

### 12.6 Other adverse effects:

No known significant effects or critical hazards.

## 13. Disposal Considerations

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

### 13.1. Waste treatment methods Product

#### Methods of disposal:

The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and nonrecyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction.

#### Hazardous waste:

The classification of the product may meet the criteria for a hazardous waste.

#### Packaging

#### Methods of disposal:

The generation of waste should be avoided or minimized wherever possible. Waste packaging should be recycled. Incineration and landfill should only be considered when recycling is not feasible.

#### Special precautions:

This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed

## Page

out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

### 14. Transport Information

	ADR/RID	ADN	IMDG	IATA
<b>14.1 UN number</b>	Not available.	Not available.	Not available.	Not available.
<b>14.2 UN proper shipping name</b>	Not available.	Not available.	Not available.	Not available.
<b>14.3 Transport hazard class(es)</b>	Not available.	Not available.	Not available.	Not available.
<b>14.4 Packing group</b>	-	-	-	-
<b>14.5 Environmental hazards</b>	No.	No.	No.	No.
<b>Additional information</b>	-	-	-	-

#### 14.6 Special precautions for user:

**Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

#### 14.7 Transport in bulk according to Annex II of

**MARPOL and the IBC Code:** Not available.

### 15. Regulatory Information

#### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

##### EU Regulation (EC) NO. 1907/2006 (REACH):

Annex XIV: None of the components are listed.

Annex XVII: Not applicable

##### Other EU Regulations:

Europe Inventory: All components are listed or exempted.

-
